In the immortal words of Marlene Mouton, "nee kyk, jy verstaan nie"...that, in a nutshell sums up our entire Japan experience. Let us just from the onset encourage all & sundry to aim to attend the **ISDF Soroban camp in August 2015**. It is truly one of those **rare and life-changing experiences**. For the children, it will change their entire perception of what Soroban Education is all about and what can be achieved with **hard work, dedication and perseverance**.

# Japan 2014 Soroban Camp

The day for the children ends at 20H00 and it is the most unbelievable thing to not hear children complain, cry or moan. Such behaviour just does not happen in the Japanese culture. Obedience is at the order of the day....every day...so be warned. The **child's every need is taken care of** and parents need not worry that your kids will not be looked after. A group of Japanese senseis are on duty every night, all night, to make sure that all the **children are safe**. One of them checks the all-ready air conditioned rooms every hour on the hour to make sure that the temperature in the rooms are just perfect. Moms and dads, "julle verstaan nie". We can **guarantee that in safer hands**, your children cannot be. There was not a single regrettable incident for the entire duration of the camp. The kids simply love the interaction with other nationalities and this perhaps is **the best life-lesson** that our children can learn from the camp. In this ever-shrinking global community, we believe it is vital for **children to be exposed to other cultures**. This is also an opportunity to communicate with other **Soroban children** from all corners of the globe.
