STUDENTS™
Abacus Maths

www.aplusstudents.co.za

IT ALL ADDS UP

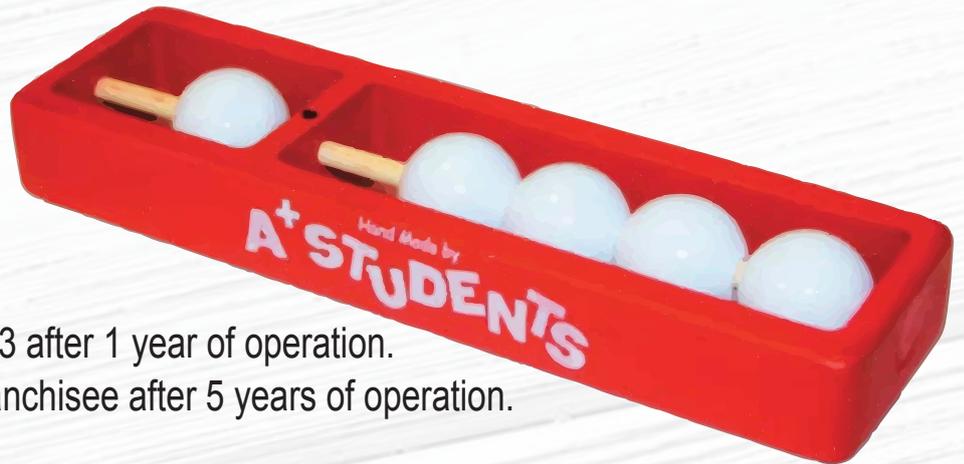

A+Students is an established brand offering early maths education and beyond through the use of the Abacus (Soroban).

Courses and methodology are unique and exclusive to A+Students Worldwide.

Classes include:

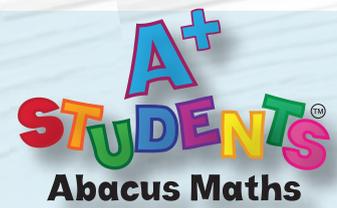

- Mini Genius Ages 3+
- Kids Genius Ages 5+
- Young Genius Ages 8+
- A+ PLAY MATHS
- Junior Genius from grade 3 after 1 year of operation.
- A+Academy for eligible franchisee after 5 years of operation.

Joining the network is an ideal opportunity for those with entrepreneurial spirit and looking to exit the corporate world, formal teaching environment or even a stay at home mom looking to get into business.

WHO IS THE IDEAL FRANCHISEE

Prospective Franchisees should have passion for Children's Education whilst being eager to personally develop alongside this growing profitable brand.

Most of all A+Students Franchisees must enjoy building relationships with their students and their parents.

With a network of 100+ strong A+Students has attracted Franchisees from a variety of backgrounds. From teachers to attorneys, from corporates to housewives, all have been attracted to this profitable concept which A+Students has developed whilst helping children develop in Maths and Mental Arithmetic.

DO I NEED TO BE A MATHS TEACHER?

The simple answer is **NO!**

If you have an entrepreneurial spirit and are passionate about helping children succeed in life, then we **NEED YOU!**

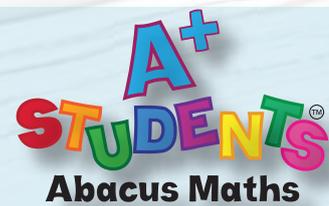

You do not have to be a Maths Teacher to join A+Students.

Full comprehensive training is provided and is compulsory before you start your business.

Ongoing advanced training is offered throughout the year to upgrade the Skill Levels of all teachers (Training costs are covered through the Franchise Fee and Royalties).

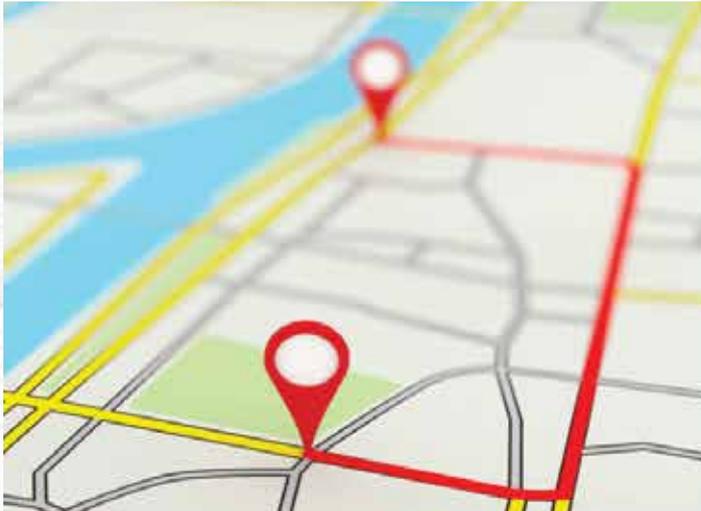

OWNING A FRANCHISE AREA

Your first Franchise

When purchasing an A+Students Franchise you will purchase the license for a specific area from which you will operate and service. No other Franchisee may service or operate in your area.

Is expansion possible?

YES! You may hire additional teachers to build up your franchise from day 1. You may also expand by purchasing an additional area.

So where do I operate From?

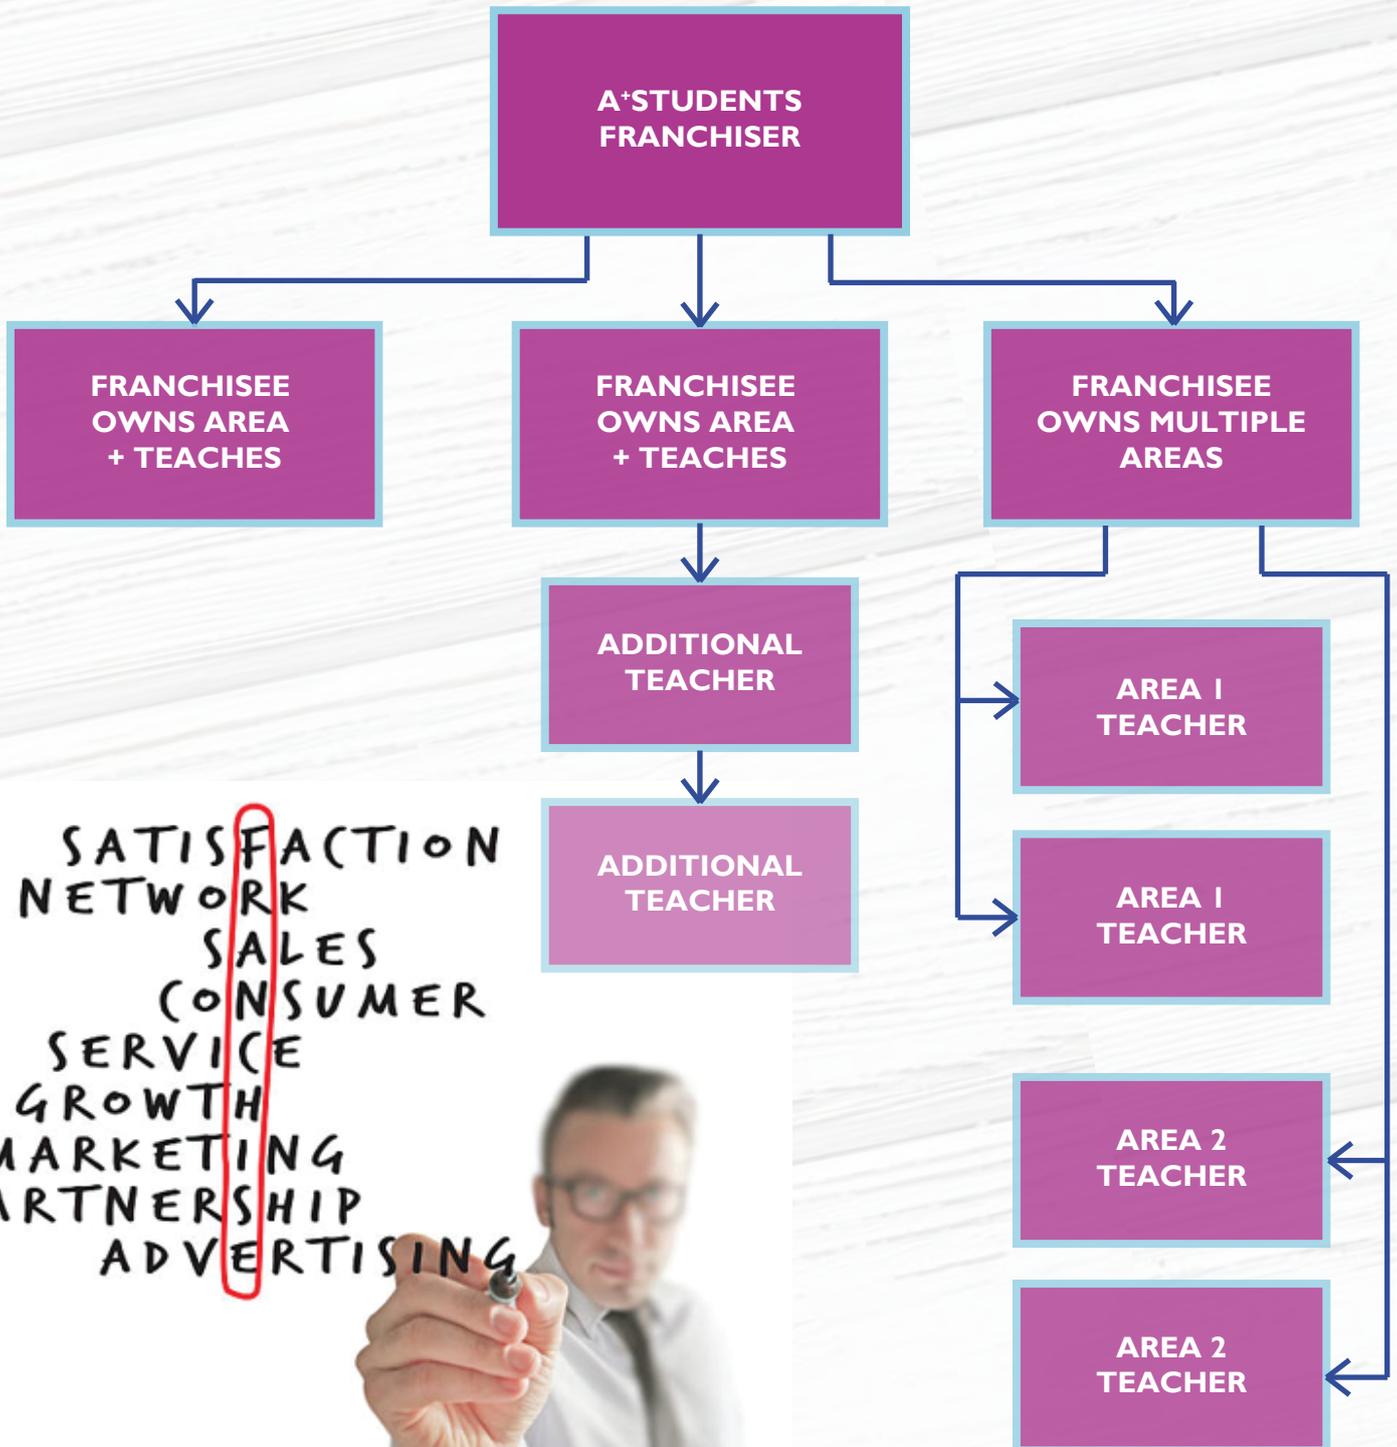

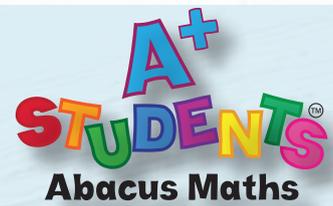

From the start you will open a Branded Branch from where you will teach.

You may also then teach from other venues such as schools, crèches, preschools etc.

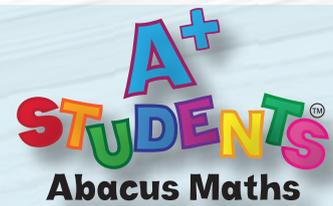

OUR TOP FRANCHISEE HAS 8 TEACHERS WORKING FOR HER

TYPICAL FRANCHISE SCENARIOS

MASTER COUNTRY LICENSES/PARTNERSHIPS ARE AVAILABLE FOR SELECTED APPLICANTS.

MAY ADDITIONAL SERVICES BE OFFERED?

After a full year of trading you may expand your business to offer the Junior Genius courses to older students. The Junior Genius courses use Abacus skills applied to Pure Maths. The courses are Cambridge based and aligned to the National Curriculum.

This additional service is already included when you purchase your Franchise so there is only a small training fee which includes all the textbooks.

May I Sell the Business?

Yes. Should you wish to exit from the business you may sell the business to approved buyers. The profit you make from the sale is **YOURS!**

LET'S TALK MONEY!

Is the Business Profitable?

Like any business, risks are involved and your success depends largely on your effort.

A Typical Scenario

One teacher can manage 150 students.

Average Fee per Student:	R500
Number of Students:	x150
= Turnover of:	<u>R75000</u>
Less Royalties:	R18750
	<u>R56250</u>
Less Average Expenses ie. petrol, admin, phone and rents etc.	+ - R20000
Potential Profit:	<u><u>R36250</u></u>

Figures are based on 1 teacher and can be increased with the addition of extra teachers

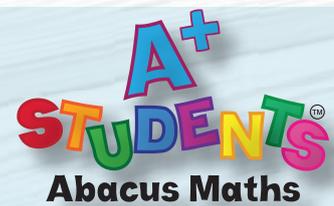

But what would this Franchise Cost Me?

Five (5) levels of flexible franchising from Branded Outlets (5 km radius) starting at R195 000. We also offer Small Town franchises starting at R95 000, as well as Acting Franchise opportunities from just R25 000. All prices exclude VAT.

SO! If you are making an average profit of about R36 000 per month, you will make your investment back within **1 YEAR!**
